Card of Thanks.

ks to our neighbors and who so kindly assisted us dur-John Henry Brucks, to all who d the funeral and for the floral efully remembered by

His children, B. H. BRUCKS MRS. HY. REITZER

Henry Brucks.

Another one of Medina County's pioneers has gone to rest, another one who helped to make this section what it is now, and whose name is identified with many of the happenings and struggles in the early days of the Quihi settlement.

Henry Brucks was born February 16, 1838, in Holtwick, Province Westphalia of Prussia, Germany. At the age of seven years, in 1845, he left the old country with his parents, one brother (the late County Judge B. Brucks), and one sister (Mrs. Gertrude Sauter, of D'Hanis) to immigrate to America. After a long and eventful voyage they arrived at Quihi in this county 1846, where he had lived ever since as a successful farmer and respected citizen, with exception of the last three years, which he spent at the home of his daughter and his sonin-law, Mr. and Mrs. Henry Decker, at Vandenburg, where he died.

In 1859, at the age of 21 years, he married Alma Faseler. This union of sadness connected with this wedding was blessed with three children, Bernhard H., Albertina and John H. Brucks, but in 1863 death took away his beloved wife and his son, John.

For 10 years he remained a widower and then he married Barbara Katherina Hartung. This happy union was blessed with four children, Wilhelmina Henrietta, Maria Helena, August Ludwig and Emil, but of these children only Wilhelmina Henrietta survives her father, the three others died in their early childhood.

In 1908 he was widowed again when death called his wife, and he followed her Friday, April 22, 1921, at the ripe age of 83 years, 2 months and

Deceased leaves three children, Bernhard H. Brucks, Mrs. Henry Reitzer and Mrs. Henry Decker, and his aged sister, Mrs. Gertrude Sauter, 14 grandchildren and 45 great-grandchildren to mourn his loss.

The funeral took place Saturday, April 23rd, in the Quihi cemetery, Rev. A. Falkenberg of Hondo officiating at the grave, and his relatives, his neighbors and his many friends followed his remains to their last resting place. May he rest in peace.

Grand Jury Re-convened.

By order of Judge Burney the grand jury re-convened Thursday to investigate the recent robbery of the Lacoste drug store. Two parties, suspected of being implicated in the burglary, were arrested at Sanderson last week-end and returned here, and it is to investigate these parties that caused the reconvening of the grand jury. Since the adjournment of the regular term of the grand jury, in an affray between Mexicans at Castroville one was critically stabbed, and this matter will also receive the attention of the body. As ake this means of expressing Mr. Rudolph Posch, who was a member of the first session of the grand jury could not be located, Mr. J. S. ness and death of our dear Fly was sworn in in his stead.

Shoop-Muennink

Mr. Phillip Messana Shoop and Miss Hilda Muennink were married at the Methodist Church at 5:00 o'clock Thursday afternoon, Rev. J. M. Alexander, pastor of the church, officiat-

While the wedding of this young couple had been anticipated for quite a while, they finally stole a march on their friends by quietly slipping into the church and marrying and were far away on their bridal trip before the people of the town were any the wiser.

The groom is engaged in the oil business in the great Tampico, Mexico, fields, and enjoys but a limited acquaintance among the people here, but those who have met him were favorably impressed with him as a young man of sterling integrity.

The bride, the daughter of Mr. and Mrs. George Muennink, is known and universally esteemed hy every one in Hondo, and all rejoice with her in her happiness. However, there is a tinge as it removes from our midst one of our favorite daughters.

Immediately after the ceremony Mr. and Mrs. Shoop left on a bridal trip to Illinois, Mr. Mimke Muennink, brother of the bride, taking them on the first part of the trip to San Antonio in his car. After returning they will go to Tampico, Mexico, where they will make their home.

To the happy young couple all the people of Hondo extend felicitations and best wishes for a long and joyous married life,

Some Snake.

Wm. Lieber, living between here and D'Hanis, killed the biggest rattlesnake that has been slain in this section in many a long day. The snake measured 6 feet 2 inches, and his nether end was adorned with 20 rattles. However, had his snakeship had his full quota of tail ornament the number would have exceeded 20 by a dozen or more as by some means or other he had lost approximate y half his warnenough venom in his fangs to destroy half the human and animal life in the county.

Marriage Licenses.

The following marriage licenses were issued the past week by County Clerk

Guy T. Newton and Miss Marguerite Tyson, April 28th.

Phillip Messena Shoop and Miss Hilda Muennink, April 28th.

Music's Perfect Mirror

The NEW EDISON "The Phonograph with a Soul"

The New Edison is like the perfect mirror that reflects form and feature, true to every line and subtlety of coloring. It gives you an exact RE-CREATION of the singing or playing of the living artist or artists.

Mr. Edison spent 7 years of his time and 3 millions of his dollars to develop the perfect realism of the New Edison. He has proved this perfect realism by comparing the New Edison with living artists 5,000 times before more than 5 million people. The New Edison is positively the only phonograph which can sustain this test.

We have, for you, a proof on offset paper of the famous Franklin Booth Etching of Mr. Edison, as he looks today. Size 12 x 19 inches. Bears no advertising matter; suitable for framing. Just fill out the ballot, - and bring or mail it to us.

SENIORS PICNIC AT THE H. H. S. Takes District Meet MEDINA LAKE.

Who said that the Seniors of 1921 don't believe in good times? A typical example of proof may be given when

present excepting one, and Mrs. and track, winning 13 points. to be had.

But after we reached the Dam, to wrong road and there was no way to get the cars to the Dam, and it would have been rather amusing if anyone 6-3. should have seen the picnicers carrying the precious packages and boxes of eats up that terribly high hill and up the river to the place of encampment. We weren't very tired -- we didn't think of being tired-but next to come was a nice little ride on the lake, about ten miles up the river in a motor boat, with a cooling breeze to refresh our memories and a pleasant rock when the boat rode on over the waves. How glorious it seemed-and the voices singing, "Let the rest of the world go by" rang out above the buzz of the motor and the happy thrills of laughter. Our journey ended, but our pleasure not yet, for our lunch came next and oh, boy! the cakes, pies, sandwiches, ice tea, coffee, fruit salads, pickles and what else? There was lots more! After lunch we lingered around-some walking along the banks, some sleeping, some in row boats on the lake, and some talking, until about three o'clock, Then all of us went on the take in row boats. There were five boats in use for our crowd and such a nice little row up to the Dam and all those pictures we took when we were on the water and while walking on top of the Dam is too good to tell. It was getting late when the last boat pulled in to shore and preparations were made to end our good old times there-yet what was to come? That is still untold. We strolled off down the same old hill we climbed at first with some boxes not yet emptied. The truck and 6. and car was loaded and we started back. A nice little spot was reached about 6:30, where supper was spread and the rest of the "eats" were disposed of.

To Stop a Cough Quick

take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues.

A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.

The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pen-Trate Salve through the pores of the skin soon stops a cough.

Both remedies are packed in one carton and the cost of the cembined treatment is 35c.

Just ask your druggist for HAYES'

Next time ask for REDSKIN TUBES.

With only six represensatives in track and three in literary, easy winner over Class-B Schools of district.

Hondo High showed her colors at the Seniors met Friday morning about the District Meet held April 15 and 16 seven o'clock and left Hondo in a at Uvalde. Out of the nine events truck and car for the Medina Dam. entered in field and track, H. H. S. Now talk about a good time-we had took three firsts, two seconds, four it from the minute we met until the thirds, and three fourths. In other minute we departed, about ten that events, two seconds and two thirds were won.

To begin the fun, everything was Oscar Filleman of H. H. S. was in good order, all the Seniors were second high point man in Class-B field

Starnes, Mr. Howell, Mr. Newton, and The Meet began Friday afternoon Mr. Martin were there to chaperone the at 3:30 when Henry and Tony Win-"bunch" although they're right there drow of Hondo High met Cotulla on when there's any fun and enjoyment the tennis courts. Cotulla was easily out-pointed 6-0, 6-0. The finals were more interesting as a hard battle was cap the climax, we traveled the fought between Sabinal and Hondo. Sabinal proved to possess greater experience, defeating H. H. S. 7-5, 6-4,

> Following the doubles, Henry Windrow met Sabinal in singles. Henry won the first set, 7-5; but Sabinal strengthened and defeated Windrow in the two following sets, 7-5. 6-4.

> Saturday morning, eliminations in track were run off. The following places were won by H. H. S.:

120 low hurdles-Milton Batot, first. 100-vd dash-Oscar Filleman, first. 50-yd dash-Oscar Filleman, second;

Tony Windrow, third. 220-vd dash-Oscar Fillman, first;

Tony Windrow, third. 440-yd dash-Henry Windrow, third; Milton Batot, fourth.

880-yd dash-Henry Windrow, sec-1 mile run-Albert Hutzler, fourth.

Running Broad Jump-Tony Windrow, third. Running High Jump-Jim Lynch,

fourth. While track was going on, Evelyn Wilson and Loraine Heath were upholding the negative side in the girls'

debate. Although doing exceptionally well they were eliminated, losing to the Eagle Pass High School team. In the Senior Boy's Declamation contest held Saturday night, George Windrow took third place for Hondo High. It was also announced that

George won third place in the essay. This is the end of the track season at Hondo High as it is not probable that our boys will attend the State Meet to be held at Austin, May 5

The Record is a good paper, well established in the to the soil, however, this restricted confidence of its patrons, and Mr. Buckner is a good editor, well experienced in the game. The combination should mean success.

INTRODUCING THE CHIEF CLERK, STATE DEPARTMENT OF AGRICULTURE.

W. T. ADAMS.

In the death of J. S. Airhart at his home near Yoakum, April 22nd, there passed a good and useful man. Mr. Airhart had long been prominent in he affairs of the Farmers' Union, and ne will be remembered by many of our eaders as having visited in Medina ounty a few years ago in the interest or that organization. He will be sadly missed in the ranks of the Union to which he had given much loving service. Peace to his school

THE man who is satisfied with himself and what he has already achieved, who thinks he is secure in his field, that there is nothing to fear from competitors, though he may not know it, is in great danger of failure. Deterioration has begun. Just as the purest water, if left at rest, will soon become s agnant, the ablest man, the most flourishing business or profession, if allowed to rest, to cease all efforts for further growth and improvement, will eventually retrograde. - Dr. Orison Sweet Marden.

In the death of Wm. A. Bowen, which occurred at his home in Arling-Mr. and Mrs. Adolph Wurzton, Friday morning, April 15, the bach and children of Cliff, spent Texas press lost a striking figure and the farmers of Texas a man who had wrought valiently in their service. As Mrs. Alice Bertriever of Hondo the editor of the Fireside Bulletin, for spent Sunday here with Mrs. several years the official organ of the Farmers' Union, he exercised a powerful influence over the councils of the Mrs. Sabastin Tschirhart and organized farmers, and was always an sons, Ferdinand and Gabe, and able and courageous defender of those things for which he stood. "One Who Miss Clara Hans and little Miss Boehme spent Sunday in San Knew Him" says in the Arlington his fellow man, to build up his com-Born, to Mr. and Mrs. Ed munity, to serve his home, his country and well."

Fletcherized Farm Facts

FLETCHER DAVIS

Cultivate the most essential crops

If any part of the crop must be allowed to suffer neglect, let it be the least essential.

A living being the first essential of all mankind, and the primary purpose of all agriculture being to produce a living from the land, it follows that those crops that produce the things consumed on the farm are the most essential crops.

The man who grows the products he must consume secures them at their cost of production.

The man who buys the products he must consume must not only pay some one else's production costs, but he must pay transportation charges, often amounting to more than the production cost, and dealer's profits, sometimes multiplied several times by speculative turnovers.

Manifestly, to produce a commermercial crop to sell on the market and with the proceeds to purchase such essentials as are needed, one needs to produce the commercial crop at a very low cost to make it profitable.

+++ And even then, this can not be economically done, no matter how low the production cost, so long as the product sells at below these produc-

Soil Alkali.

"In a strictly chemical sense the word 'aikali' refers to a substance having a basic reaction. As applied meaning does not hold, and alkali refers to any soluble saits that make the soil solution sufficiently concentrated to injure plants. This includes the chlorides, sulphates, carbonates, and the chloride and nitrate of cal-

"Soils containing injurious quantities of aikali are found on ever continent. These soils, however, do not occur in all parts of the continents, the distribution being confined areas where conditions favorable to their formation preyail. The most conditions important of aridity.

"More than half of the North-American continent is arid or semiarid. Throughout this vast area alteen or seventeen of the western states of the Union, alkali is found to be one of the chief agricultural

Much of Texas is included in this area, and wherever irrigation is practiced over any considerable period alkali becomes more or less of .a

"The study of alkali is by no means simple, nor have all the problems relating to it been solved. The many different salts involved, each with its own properties; the various types of soils in which these salts occur, all with different textures and composition; the complex relations between the soluble salts of the soil and the plants growing on it; and the several economic factors involved in the reclamation of ukali land: these and num erous other considerations make the problems connected with soil alkali as different to solve as any found in agricultural science."

The foregoing quotations are random excerpts from a 260-page book by Dr. Franklin Stewart Harris, director Utah agricultural experiment station, entitled "Soil Aikali, Its Origin, Naure and Treatment," The book is substantially bound and liberally illustrated, and is published by John Wiley & Sons, New York.

In the sixteen chapters of his book Dr. Harris discusses in a very scholarly manner the origin of alkali, its nature, toxic limits, vegatation as an indicator of alkali, chemical methods of determining, relation of alkali to physical and biological conditions, movement through soil, methods of reclaiming, practical drainage, crops fitted to alkali lands, and other live questions. The volume is most too technical for general reading, but to the man troubled with alkali or who must depend upon irrigation, the chapters on "Reclaiming Alkali Lands." "Practical Drainage" and "Crops for Alkali Land" make it worth many times the cost of the

To again quote the arthor: "The present volume is intended as a text and reference work for students of Journal: "His chief aim was to help soils and others interested in arid agriculture. It should find wide use by county agricultural agents and the better trained farmers in regions and his God-and so he did, faithfully where the aikali problem is encoun-

"The successful pursuit of agriculture calls for the constant overcoming it is effected particularly by the each season, but success demands that these be solved. The difference between civilization and savagery consists largely in meting difficulties and being masters of nature instead of merely victims of circumstance.

"The demand for an increased acre age of land to supp y food for the world will make it necessary to use more and more the lands that were pfeviously not considered worthy of cultivation. This will demand that greater attention be given to alkali lands, and that more intelligence be put into understanding and reclaiming
